Work experience

2022 - today CTO (Chief Technology Officer) and Partner at [glueglue S.r.l.](#) (Pavia):

After four years, I became the person in charge of managing all technological aspects of the company. I also became a Partner, since the two funders decided to give me a portion of the company in recognition of my work and impact.

2020 - 2021 Co-founder and Partner at [microchaos S.r.l.](#) (Pavia):

I co-founded a marketing agency based in Pavia, and contributed to grow the company on the technological level.

- 2018 - 2022 UX Engineer, Web and App Developer at glueglue S.r.l. (Pavia):
I develop website using PHP, PHP Framework Symfony, Twig templating engine, Doctrine ORM, native Android apps using Java programming language and hybrid Flutter apps using Dart programming language.
- 2014 - 2018 Web and App Developer at eFarm Group S.r.l. (Milan):
I develop native Android applications, and develop websites from the ground-up. My work involves the knowledge of HTML, CSS, PHP, MySQL, Nginx, Apache, Ubuntu, and related technologies.
- 2015 - 2019 Sports photographer at ACSI Equitazione Lombardia (Lombardy):
I was the official photographer at monthly equestrian competitions organized by ACSI.
- 2016 - 2017 Event organizer at Night Sky Events (Milan):
I co-founded this non-profit organization; my main job was to help organize national tv-show conventions.
- 2015 - 2017 Writer and Web Developer at Inchiostro UNIPV (Pavia):
It's the physical and digital newspaper of my University, and I wrote about thirty articles, many of them were restaurants reviews.
- 2012 (1 month) Steward at the International Olympiads of Informatics (Sirmione):
My job was to help my assigned team of international participants in every aspect of their stay. Since the teams were from all around the world, the job was completely in English.

Musical studies

I studied for about 10 years piano until I moved to Pavia in 2015; during this time I had studied piano both in public school and with private teachers.

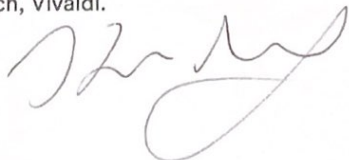

In Pavia I started singing as a tenor in Ghislieri College University Choir, one of the best semi-professional musical project in northern Italy. This has given me extraordinary musical opportunities that grew me as a musician in the choir; here's a brief list:

2023 - Concert with Luca Colombo (Founder of Ensemble Biscantores) with music from Scarlatti, Caldara and Charpentier.

2022 - Concert with Enrico Onofri (Principal Conductor of the Toscanini Orchestra) with music from Mozart and Josquin Des Prez.

2022 - Concert with Giulio Prandi (Director of Centro Musica Antica Ghislieri) and Cameristi della Scala Orchestra. Music from Vivaldi, Sarti.

2021 - Concert with Vladimir Spivakov (Principal Conductor of the National Philharmonic of Russia) commissioned by Bernard Arnault (owner of LVMH Group). At the concert were in the audience a fare amount of famous people including: Beyonce, Jay-z, Roger Federer. Music from Bach, Vivaldi.

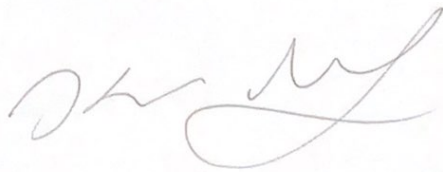

2020 - Concert with Federico Maria Sardelli (responsible of Vivaldi music catalogue). Music from Corelli, Vivaldi, Sardelli. This concert includes the first world recording of an original Vivaldi piece.

Personal projects

Episodium (episodium.it) - Is an Italian website that allows people to sign up, add the tv shows they would like to follow, obtaining an interactive calendar with all the episodes.

I created it from scratch using just plain PHP and MySQL and it now has about 40.000 italian users.

Collegi di Pavia (collegidipavia.it) - Is a website I created in order to give visibility to the College of my town-of-study, Pavia. This website is written in PHP along with the framework Symfony.

A handwritten signature in black ink, appearing to be 'D. M. Sardelli', located at the bottom center of the page.
